

Open Letter to the Honorable Joseph R. Biden
President of the United States of America
January 13, 2022

Joseph R. Biden, President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500
United States of America

Dear President Biden:

We write to you as U.S. military veterans who were injured (and their family members), and Gold Star families whose loved ones were killed, in terrorist attacks committed by Iran's Islamic Revolutionary Guard Corps ("IRGC") and its proxies, including Hezbollah. We are aware that your administration is currently negotiating in Vienna to rejoin the so-called Joint Comprehensive Plan of Action ("JCPOA") in an effort to constrain Iran's march toward developing nuclear weapons. We further understand that significant sanctions relief is being discussed as part of those negotiations, including potentially lifting terrorism sanctions imposed on the IRGC, Iran's Central Bank ("CBI") and the National Iranian Oil Company ("NIOC").

As you may know, there are estimated to be more than \$60 billion in unpaid terrorism lawsuit judgments and associated judgment liens awarded to individuals in U.S. courts against Iran. In addition, many billions of dollars in claims are pending in U.S. courts brought by Gold Star families and the families of service members wounded in Iraq and Afghanistan.

At the same time, billions of dollars of Iranian funds, including those nominally held by the CBI and NIOC, remain frozen in banks in Japan, South Korea and elsewhere, and the release of those funds is no doubt a key demand of the Iranian regime.

We certainly understand and respect the fact that you are charged by the Constitution to pursue America's foreign policy interests and that preventing Iran from developing nuclear weapons is in the vital interests of the United States. We also believe the United States needs to articulate a path forward to address the thousands of attacks orchestrated and committed by the IRGC against Americans over the past 40 years and the legal claims and (mostly unpaid) judgments that have resulted from that egregious conduct.

We share your view that Iran must never be allowed to develop or acquire nuclear weapons, but we do not believe that any sanctions on Iran should be lifted or suspended that result in the release of frozen funds until all outstanding judgments and pending claims against Iran and the IRGC have been fully satisfied. In our view, Iran's frozen funds should go *first* to the regime's American victims before a single dollar goes to the regime itself.

We hope that you will find the time over the next few months to meet with some of the Gold Star families directly affected by this issue. We look forward to your support for our efforts to hold Iran responsible for the deaths and maiming of thousands of Americans.

Respectfully submitted,

SPC Karar Adel Alabsawi
